

SAFETY DATA SHEET

Article 1 - Product Identification

Product Name: Co-NTA resin**Catalog # CN01-RA25**

This product is sold only for research use by qualified laboratory personnel, and is not to be used as a drug, medical device, food additive, cosmetic, nor household chemical. It is not to be used in diagnostic, therapeutic, consumer, agricultural, nor pesticidal applications.

Supplier of Datasheet:	SignalChem Diagnostics Inc.
Street Address:	190-13160 Vanier Place
City, Prov. Postal Code:	Richmond, BC, V6V 2J2
Country:	Canada
Phone Number:	1-888-606-3424 (Toll-free) 1-778-326-0223 (local)
Emergency Phone Number:	In case of an emergency contact your local poison control center
Canada:	1-844-764-7669
USA:	1-800-222-1222

Article 2 - Hazard Identification

- **WHMIS Classification:** Not WHMIS controlled.
- **GHS classification:** Flammable liquids (Category 3)
- **Hazard Pictograms:**

- **Signal words:** Warning
- **Hazard statements:** H226 Flammable liquid and vapor
- **Precautionary statements:**
 - P210 Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.
 - P233 Keep container tightly closed.
 - P240 Ground and bond container and receiving equipment.
 - P241 Use explosion-proof [electrical/ventilating/lighting/...] equipment.
 - P242 Use only non-sparking tools.
 - P243 Take precautionary measures against static discharge.
- **Other hazards:** None known.

Article 3 - Composition/Information on Ingredients

Chemical Characterization: Mixtures.**Description:** This product consists of the substances listed below.

Common name	Chemical name	CAS-No.	Concentration (w/v)
Ni-TED resin	Agar	9002-18-0	80%
Ethanol	Ethyl alcohol	64-17-5	20%

SAFETY DATA SHEET

Article 4 – First-aid Measures

- **General information:** Consult a physician by providing the SDS.
- **After inhalation:** In case of irritation by inhaling this product, move the affected person to fresh air and await recovery. If irritation persists, seek immediate medical attention. If the casualty cannot breathe, give artificial respiration and seek immediate medical attention.
- **After skin contact:** Immediately wash with soap and plenty of water and rinse thoroughly. Consult a physician.
- **After eye contact:** Rinse open eyes with plenty of water for at least 15 minutes. Consult a physician.
- **After swallowing:** Rinse the mouth with plenty of water and consult a physician.

Article 5 – Fire-fighting Measures

- **Suitable extinguishing media:** Use carbon dioxide, extinguishing powder, foam or dry sand/powder.
- **Unsuitable extinguishing media:** Avoid using water directly on the fire as it can cause flammable liquids to splash and spread the fire.
- **Specific hazards arising from the substance or mixture:** Ethanol is flammable, and containers may explode when heated.
- **Special protective equipment and precautions for fire-fighters:** Self-contained breathing apparatus if necessary. Firefighting personnel should stay upwind to avoid inhaling harmful smoke.

Article 6 – Accidental Release Measures

- **Personal precautions, protective equipment, and emergency procedures:** Apply standard laboratory practices and personal protective equipment. Avoid breathing vapors, mist, or gas. Ensure adequate ventilation.
- **Environmental precautions:** Do not allow to enter drains.
- **Methods and materials for containment and cleaning up:** Absorb via sand or vermiculite and place in closed containers for disposal.

Article 7 – Handling and Storage

- **Precautions for safe handling:** Wear chemical safety goggles and compatible chemical-resistant gloves. Avoid inhalation, and contact with eyes, skin, or clothing.
- **Conditions for safe storage:** Store according to product label instructions. Keep the container upright and tightly closed. Avoid contact with incompatible materials like oxidizers and acids.

Article 8 – Exposure Controls/Personal Protection

- **Components with limit monitoring values at workplace:** N/A
- **Appropriate engineering controls:**
Apply adequate ventilation including mechanical exhaust or laboratory fume hood. Follow standard laboratory practices.
- **Individual protection measures:**
Respiratory protection:
If ventilation is inadequate, use respirators and components that are tested and certified in compliance with applicable government standards.
Hand protection:
Wear gloves and use proper glove removal technique to avoid skin contact. Discard gloves after use by following the applicable laboratory regulations. Wash and dry hands.
Eye/face protection:
Safety goggles with side-shields tested and certified in compliance with applicable government standards.

SAFETY DATA SHEET

Skin/body protection:

Use appropriate clothing, footwear and any additional protection measures to protect from splashes or contamination.

Article 9 – Physical and Chemical Properties

Physical state: Liquid suspension.	Color: Blue.
Odour/Odour Threshold: Slight odor	Particle characteristics: Not applicable.
Melting point/freezing point: Not determined.	pH: Not available.
Boiling point/Boiling range: Not determined.	Viscosity: Not determined.
Flammability (solid, gaseous): Not determined.	Solubility: Partially insoluble in water
Explosion/Flammability limits: Not determined.	Partition coefficient n-octanol/ water: Not determined.
Flash point: 30°C	Vapor pressure at 20 °C: Not determined.
Auto-Ignition temperature: Not determined.	Density/relative density: Not determined.
Decomposition temperature: Not available.	Relative vapor density: Not determined.

Article 10 – Stability and Reactivity

- **Reactivity:** Stable under recommended transport and storage conditions.
- **Chemical stability:** Stable under recommended transport and storage conditions.
- **Possible hazardous reactions:** No dangerous reactions known.
- **Conditions to avoid:** Open flames, sparks, static electricity, heat.
- **Incompatible materials:** Strong acids, strong oxidizing agents.
- **Hazardous decomposition products:** Carbon oxides may be formed under fire conditions; no known decomposition information for other decomposition products.

Article 11 – Toxicological Information

- **Acute toxicity:** Not available.
- **LD/LC50:** Not available.
- **Skin corrosion/irritation:** Not available.
- **Serious eye damage/eye irritation:** Not available.
- **Respiratory or skin sensitization:** Not available.
- **Germ cell mutagenicity:** Not available.
- **Carcinogenicity:** No components are listed in IARC, or NTP, or OSHA, or ACGIH.
- **Reproductive toxicity:** Not available.
- **Teratogenicity:** Not available.
- **Specific target organ toxicity - single exposure/ - repeated exposure (GHS):** Not available.
- **Aspiration hazard:** Not available.
- **Potential routes of exposure:**
 - Inhalation:** Not available.
 - Ingestion:** Not available.
 - Skin:** Not available.
 - Eyes:** Not available.
- **Signs and Symptoms of Exposure:** Not available.
- **Synergistic effects:** Not available.

SAFETY DATA SHEET

Article 12 - Ecological Information

- **Eco-toxicity:** No data available.
- **Biodegradability:** No data available.
- **Bio-accumulative potential:** No data available.
- **Mobility in soil:** No data available.
- **PBT and vPvB assessment:** No data available.
- **Other adverse effects:** No data available.

Article 13 - Disposal Considerations

- **Disposal methods:** Dispose in accordance with applicable national, regional, or local laws and regulations. For additional handling information and protection of employees please refer to Article 7 and 8.
- **Contaminated packaging:** Dispose in accordance with applicable national, regional, or local laws and regulations. Use water or cleansing agents to clean the area.

Article 14 - Transport Information

- **DOT:** Not dangerous goods.
- **IMDG:** Not dangerous goods.
- **IATA:** Not dangerous goods.
- **UN number:** UN Number (UN No.): 1993
- **UN proper shipping name:** Flammable Liquid, Not Otherwise Specified (Chromatography Media)
- **Transport hazard class:** Not applicable.
- **Packing group:** III
- **Environmental hazards:** Not applicable.
- **Transport in bulk according to IMO instruments:** Transport vehicles should be equipped with proper fire-fighting equipment and spill response tools. Ensure that containers are well-sealed during transportation and avoid collisions, friction, or exposure to high temperatures to prevent leaks and fire hazards
- **Special precautions for user:** Not applicable.

Article 15 - Regulatory Information

- **Canada Federal Regulations:** This product has been classified in accordance with the hazard criteria of the Hazardous products Regulations (HPR) and the SDS contains all the information required by the HPR.
- **Chemical Safety Regulations:** This product is not listed in China's existing chemical substances catalog, Hazardous chemicals catalog, Occupational exposure limits, or in Common dangerous chemicals classifications and labeling regulations.

SAFETY DATA SHEET

- **Relevant National Standards:** GB/T 16483-2008, GB/T 17519-2013, GB 13690-2009, GB 6944-2012, GB/T 15098-2016, GB 18218-2021,

GB 15258-2009, GB 190-2009, GB/T 191-2016, GB 12268-2012, and relevant regulations: Regulations on the Management of Dangerous Goods Transport, Regulations on the Safety Management of Hazardous Chemicals, United Nations Recommendations on the Transport of Dangerous Goods - Model Regulations (UNRTDG).

Article 16 - Other Information

- **Version #:** 1.0
- **Issued date:** 2025-02-19

The above information is believed to be correct but does not purport to be all-inclusive and shall be used only as a guide. SignalChem shall not be held liable for any damage resulting from handling or from contact with the above product. See the Technical Specification, Packing Slip, Invoice, and Product Catalog for additional terms and conditions of sale.
